PhD in applied physics from MIT (Massachusetts Institute of Technology)

Master's Degree in applied physics from ETH Zürich

Bachelor's Degree in physics from KTH Royal Institute of Technology in Stockholm

Working Experience

2018 – 2022 PhD assistant at MIT

2016 – 2018 Assistant at ETH Zürich

Letter of motivation

“...my passion for teaching is boundless. During my years as an assistant, I have found that patience and respect create the most productive environments. I cannot wait to apply what I have learned in the past to teaching children and explore together the world around us through science....”

Hobbies: eco-feminist activism, running, rock climbing
