London Secondary School

2016 – 2018 Science Teacher at East
York Secondary School

Letter of motivation

“...my hope is that in moving into a smaller community I will be able to better meet the needs of each individual student, and apply my teaching methods most effectively. Passion alone unfortunately is not enough to make a good teacher, but with my excellent organizational skills I will prove to be an invaluable asset in the class and the wider school community in general.”

Hobbies: knitting, reading, baking
